

## Comparing Energy Audit/Building Science Services

C.L.I.	Our Competitors
<input checked="" type="checkbox"/> Resnet Certified Energy Raters	<input checked="" type="checkbox"/> Graduate One Day Energy Tune-Up Program
<input checked="" type="checkbox"/> ICC Certified Energy Inspector/Plans Examiner	<input checked="" type="checkbox"/> No Energy Code Experience
<input checked="" type="checkbox"/> Certified Member – Association of Energy Engineers	<input checked="" type="checkbox"/> Lack Credential From Industry Leaders
<input checked="" type="checkbox"/> Energy Star Partner	<input checked="" type="checkbox"/> Not Partnered With Energy Related Building Programs
<input checked="" type="checkbox"/> Infrared Thermography Scan as Part of Every Audit	<input checked="" type="checkbox"/> Do Not Use Infrared Technology (Major Shortcoming)
<input checked="" type="checkbox"/> N.C.I. Certified Combustion Analyst to Provide HVAC System Audit	<input checked="" type="checkbox"/> Do Not Perform Combustion Analysis or Are Not Certified
<input checked="" type="checkbox"/> Multi-Point Blower Door Testing for Accuracy	<input checked="" type="checkbox"/> Use Old Model, Single Point Testing (More Subject to User Error and Are Not As Accurate)
<input checked="" type="checkbox"/> Duct Blower Duct Testing for Accuracy	<input checked="" type="checkbox"/> Do Not Perform Duct Testing or Use Inaccurate Blower Door Subtraction Method
<input checked="" type="checkbox"/> Video Cam Duct Inspections	<input checked="" type="checkbox"/> Do Not Perform Video Cam Duct Inspections
<input checked="" type="checkbox"/> Board Certified Indoor Air Quality Professional	<input checked="" type="checkbox"/> Have No Knowledge of Indoor Air Quality Issues (Extremely Important When Altering Systems)
<input checked="" type="checkbox"/> ICC Certified Building, Electrical, Mechanical, Plumbing Code Inspector	<input checked="" type="checkbox"/> Do Not Have 30 Years of Experience in Building Construction, Codes, Inspection
<input checked="" type="checkbox"/> State Licensed HVAC Technicians for HVAC System Assessments	<input checked="" type="checkbox"/> Technician Are Not State Licensed HVAC Technicians (Therefore Cannot Perform Thorough Assessment of Systems)
<input checked="" type="checkbox"/> State of the Art Reporting Including Full Report of Building Tightness, Ventilation, Infrared Scans, etc.	<input checked="" type="checkbox"/> Issue Single Page Confusing Report Which Answers No Questions
<input checked="" type="checkbox"/> Is an INDEPENDENT Third Party (We Have No Financial Interest in Results Other Than Helping You reduce Energy Costs)	<input checked="" type="checkbox"/> Many Heating, Insulation, Remodeling & Window Contractors Offer Some Type of Energy Services (These Companies Have Vested Interest in Results)

When you hire the services of a building science or energy company to perform services on your building or home, the company that you choose will make the difference in the satisfaction you receive. As with every other consumer concern relating to their homes (mold, asbestos, energy, etc.) The minute that a consumer concern arises, the unqualified profiteers also arrive. There are organizations which create their own certifications which can be attained through a one day class or even over the internet. There is no possibility of receiving an in-depth and information energy audit as a half hour add-on to a home inspection (the same is true for the home inspector/mold experts). Such services may simply be wasting your money.

Closer Look Inspections devotes their entire business to the science of buildings. Whether your concern is energy, ventilation, your heating/cooling system or indoor air quality, our team of highly qualified technicians can properly diagnose and develop cost effective retrofit strategies (if needed) in an unbiased manner. We are independent third-party consultants that have no hidden agenda. The services and equipment we offer are state of the art and offer the most accurate and informative information available.

We invite you to call us to discuss your needs and compare what we offer with the services and qualifications of our competitors. We think you will agree that C.L.I. is the company that will meet your requirements. That is what makes us Cleveland's number one building science and energy related services company.
